- *Analyzed camera trap data to evaluate the distribution and abundance of invasive European rabbits on Robinson Crusoe Island, Chile.*
  - *Managed and processed camera trap data from Juan Fernández Island, Chile.*
  - *Applied hierarchical occupancy and abundance models to analyze the distribution of European rabbits on Juan Fernández Island.*
- 2023-2023      **Data analyst - Jaguar Corridor Colombia**  
World Wildlife Fund for Nature Colombia - WWF Colombia
- *Developed occupancy models to evaluate corridor use by jaguars (*Panthera onca*) and other mammal species in Guaviare and Putumayo, Colombia.*
  - *Selected and organized environmental variables related to jaguar occupancy.*
  - *Developed Bayesian hierarchical community models for species monitoring.*
- 2015-2017      **Professional Biologist**  
Yoluka ONG – Fundación para la Biodiversidad y la Conservación, Colombia
- Assisted with conservation project formulation, coordination, and management.
  - Contributed to the formulation of the Environmental Management Plan for Natural Protected Areas
  - Supported the preparation of technical social, economic, and environmental studies.
  - Evaluated and monitored bat communities as biological control agents and indicators of ecological health in Poligrow oil palm plantations in Mapiripán, Meta, Colombia.

## Teaching Experience

---

Arthur Temple College of Forestry and Agriculture, Stephen F. Austin State University

- Guest Lecturer - Using R for Scientific Research (Fall 2025, 2024)
- Wildlife Field Station (Summer 2025, 2024)
- Guest Lecturer - Population ecology (Spring 2025)

- Guest Lecturer - Quantitative Ecological Methods in R (Spring 2025, 2024)  
*Instituto de Ecología A.C.(Mexico)*
- Guest Lecturer - Modeling occupancy, abundance, and population density: frequentist and Bayesian approaches R (Summer, 2025)
- Co-Lecturer - Introduction to statistics (Spring, 2023)
- Guest Lecturer - Techniques and methods for the study and conservation of wildlife (Spring, 2019)
- Universidad Autónoma de Nuevo León (Mexico)*
- Guest Lecturer - Analytical Methods in Population and Community Ecology (Fall, 2023)
- Guest Lecturer - Occupancy models for the study of wildlife distribution and habitat use (Fall, 2022)
- Benemérita Universidad Autónoma de Puebla (Mexico)*
- Co-Lecturer - Photo-trapping workshop in R. Occupancy and abundance modeling (Summer, 2022)
- Co-Lecturer - Photo-trapping workshop in R. Wildlife-habitat analysis in GIS-R (Summer, 2022)
- Co-Lecturer - Photo-trapping workshop in R. Diversity analysis (Spring, 2022)
- Co-Lecturer - Photo trapping workshop in R. Basic concepts: Organization and analysis of photographs (Spring 2022, Fall 2021)
- Universidad Nacional Autónoma de México (Mexico)*
- Guest-Lecturer - Photo trapping in R: Data organization and analysis. (Summer 2020)

## Mentoring & Academic Service

---

### Thesis supervision

Undergraduate | Alan Pastor Suarez Lopez. *Time Independence of Camera Trap Detections: Effects on Activity and Detection Frequency Estimation*. Escuela Nacional de Estudios Superiores Unidad Morelia, Universidad Nacional Autónoma de México (UNAM), Morelia, Michoacán, México. (2022-2023)

### Committee Member

M.Sc.| Hunter Thomas Oliver. *Partitioning Of Space, Time, And Forage Resources Between Native and Invasive Ungulates In The Edwards Plateau Ecoregion*. Stephen F. Austin State University, UT System, Nacogdoches, Texas, U.S. (2025 – present)

Ph.D.| Estefania Espitia Martinez. *Taxonomic diversity, population dynamics, and functional connectivity for vertebrate groups in the environmental mosaic of the Amaní reservoir protection area (Caldas, Colombia)*. Facultad de Ciencias

Exactas y Naturales, Universidad de Caldas, Manizales, Caldas, Colombia.  
(2024- present)

Ph.D.| Duston R. Duffie. *Influence of Invasive Vegetation on Mammalian and Herpetofauna Communities Through a South Texas Landscape*. Texas A&M University-Kingsville, Kingsville, Texas, U.S. (2024 – in process)

Ph.D.| Brandon A. Gross. *Reproductive Ecology of American Alligators (Alligator mississippiensis)*. Stephen F. Austin State University, UT System, Nacogdoches, Texas, U.S. (2024 – 2026)

M.Sc.| Ethan Russell Menzel. *Evaluating the Impact of Southern Pine Plantation Developmental Stage on Wildlife diversity: using a multi-taxa approach*. Stephen F. Austin State University, UT System, Nacogdoches, Texas, U.S. (2024-2025)

M.Sc.| Kimberly F. Birrer. *Assessing Bumble Bee (Bombus Spp.) Abundance Across Habitat Treatments and Describing Phenology in East Texas Ecosystems*. Stephen F. Austin State University, UT System, Nacogdoches, Texas, U.S. (2024-2025)

Undergraduate.| Mariela Cecilia Fernandez Morales. *Spatio-temporal segregation and prey availability in two wild canids (Canis latrans and Urocyon cinereargenteus) in an anthropized landscape of the Mexican altiplano*. Universidad Autónoma de Nuevo León, Facultad de Ciencias Biológicas, Monterrey, Nuevo León, México. (2024)

### **Thesis evaluation**

Ph.D.| Ana Cristina Fernández Salazar. *Effect of landscape on disease ecology in wildlife*. Universidad Nacional de Colombia, Medellín, Colombia. (2026)

M.Sc.| Camila Yoeli Diaz Ibarra. *Effects of predation and food availability on the spatiotemporal dynamics of three canid species in the Chihuahuan Desert*. Instituto de Ecología A.C. (INECOL), Xalapa, Veracruz, México. (2024)

Undergraduate.| María Camila Diaz Corzo. *The Home of the Jaguar: An Analysis of Occupancy in the forests and savannahs of the Colombian plains in dry and wet seasons*. Pontificia Universidad Javeriana, Bogotá, Colombia. (2020)

## **Conference & Meeting Presentations**

*and Procyonidae families in Colombia*. II Symposium of Small Carnivores and IV Colombian Congress of Zoology, Cartagena, Colombia.

## Awards & Grants

---

### Awards

- Andrade-Ponce, G. (2020). Award for Academic Excellence – Best Master’s Thesis. Asociación Mexicana de Mastozoología (AMMAC). First place.
- Andrade-Ponce, G. (2019). Doctoral Fellowship (2019-2023). Consejo Nacional de Humanidades, Ciencia y Tecnología (CONAHCyT), Mexico.
- Andrade-Ponce, G. (2018). Scholarship for Academic Excellence at the V Colombian Congress of Zoology. Asociación Colombiana de Zoología. Awarded by the Colombian Association of Zoology for the work “Cooccurrence of *Vulpes macrotis* and *Canis latrans* in the Mapimí Biosphere Reserve, Mexico”.
- Andrade-Ponce, G. (2017). Master’s Fellowship (2017- 2019). Consejo Nacional de Humanidades, Ciencia y Tecnología (CONAHCyT), Mexico.

### Grants

- Antoniazzi, R., **Andrade-Ponce, G.**, Lu, Y. & Bennett, D. (2026). Multi-trophic Responses to PUB Restoration in Texas: Plants, Invertebrates, Birds, and Mammals. Texas Parks & Wildlife Division.
- Williams, J., Pascarella, J., Doucet, D., Bennett, D., Kulhavy, D., Antoniazzi, R., Smith, L. A., & **Andrade-Ponce, G.** (2025). *Exploring the biology of Texas bees of conservation concern with new and old technologies*. Texas Comptroller CFP – Texas Endangered Species Management. Not funded.
- Andrade-Ponce, G.** (2020). *Between droughts, rains, and humans: Spatial patterns of mammals in the tropical dry forest of the Tehuacán–Cuicatlán Biosphere Reserve, Mexico*. American Society of Mammalogists – Latin American Fellowship. Not funded.
- Durán-Antonio, J., & **Andrade-Ponce, G.** (2018). *Effect of grazing and co-occurrence species on the occupancy of carnivore mammals at the Mapimí Biosphere Reserve, Mexico*. The Rufford Foundation. Funded (~USD 9,400).
- Angarita, T., & **Andrade-Ponce, G.** (2017). *Pandi’s mushroom-tongue salamander (Bolitoglossa pandi): Conservation case study*. Mohamed bin Zayed Species Conservation Fund. Funded (USD 12,400).
